

CONFERENCE PROJECT DOCUMENTATION

⑩ First of all we open browser phone using <https://192.168.1.27/Browser-Phone/Phone> otherwise we can download and use Zoiper .

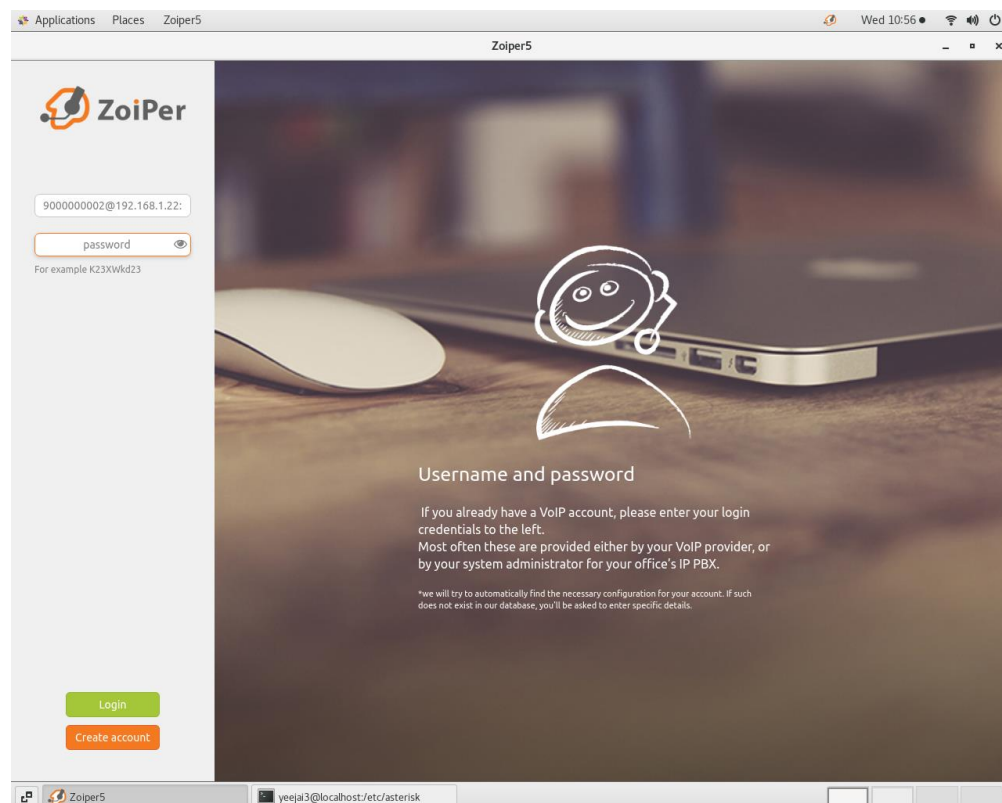

⑩ We can use any type of phone , we must registered our sip username in it .

⑩ We can use one of the sip username depends on our phone . sip username for zoiper are 105 , 106, 103 and sip username for browser phone is 100 , 101 , 102 , 107 , 108 , 109 .

⑩ The sip password and IP (domain or asterisk server address) is same for all type of phones .

⑩ Sip password is 12345 and IP (domain) is 192.168.1.34 .

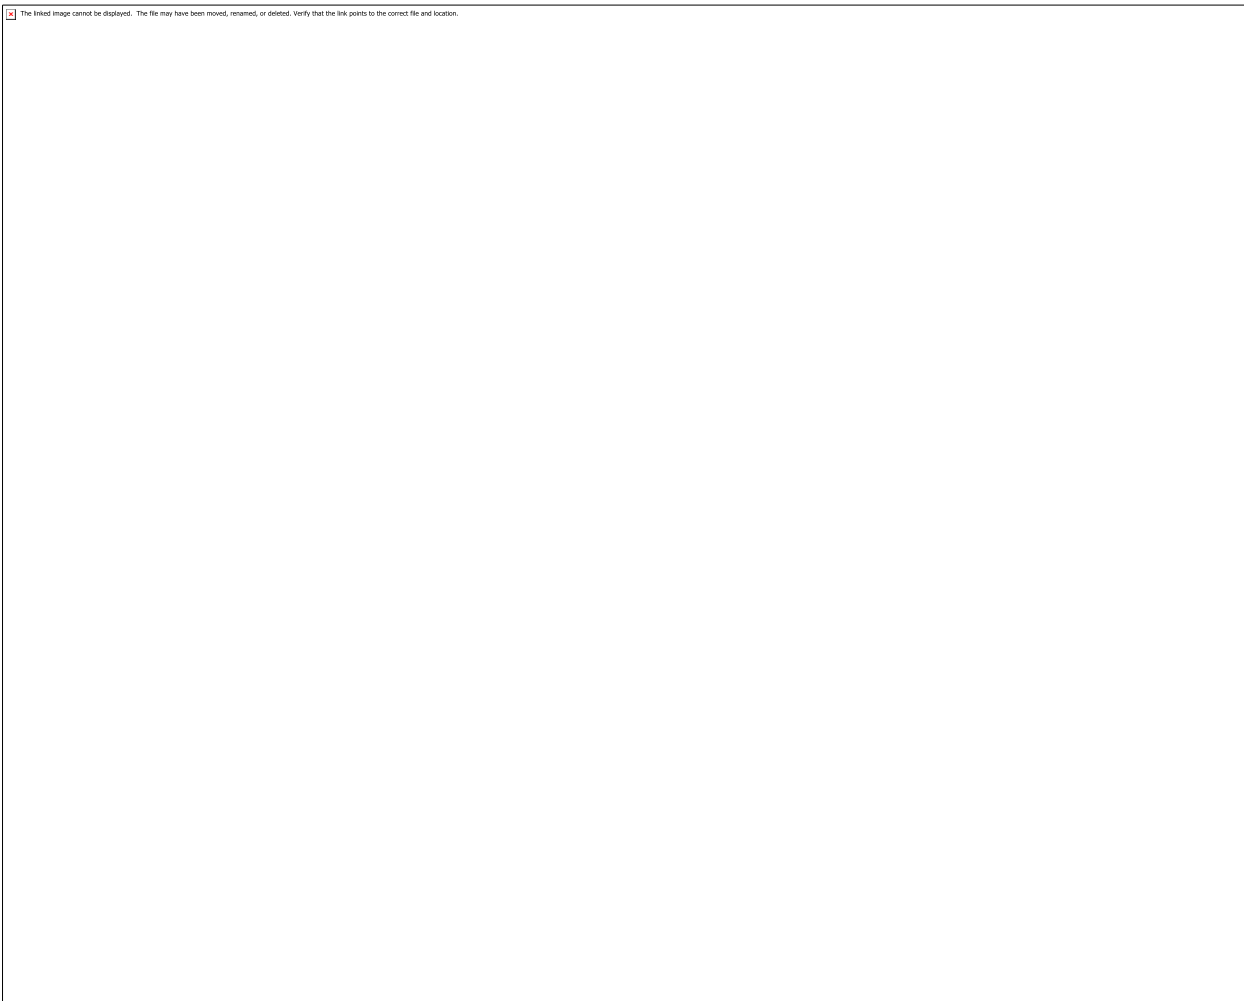

⑩ In

case
we can

use browser phone we must registered web socket path (/ws) and web socket port (8089).

- ⑩ We also include sample registered page for zoiper and browser-phone as shown in below :

- ⑩ If we complete the registration and then save it .
- ⑩ If the sip number is successfully registered and we make the conference by the help of following steps .

- ⑩ Firstly we call for a extension number (222) which is used for conference .
- ⑩ If you call for a correct conference extension number and then you enter into conference call and then say your called number (222).
- ⑩ And then it will play the playback like “Welcome to the conference”.
- ⑩ And then play a playback like “enter conference pin” and then enter your conference pin number .
- ⑩ If you are a admin of a conference then enter allocated pin number (5555) and if you are a user then enter pin number (1234).
- ⑩ You entered correct pin number and then this will play your entered pin number and then play like “your conference will begin soon”.
- ⑩ If you entered wrong pin number and then it will play a thanks prompt and your call is hang up .
- ⑩ If you are a user , you must wait for atleast one admin to join , otherwise conference is not begin .
- ⑩ Once admin join into the conference and the conference will begin .

FEATURES :

- ⑩ If the user will enter into the conference and then user will wait for the admin to join , once the admin is joined into the conference and the conference will begin .
- ⑩ The conference have atleast one admin . If you prefer everyone is a admin and then it is also possible .
- ⑩ If there is only one admin and the others are users in the conference , and then admin will leave the conference and then whole conference is ended .
- ⑩ If conference has some users and more than one admin , if one admin want to leave then it will not affect the conference and the conference will continue .
- ⑩ Suppose if user want to leave the conference and it will not affect the conference call .
